

Texas Deer Association Communication & Information Flow

TDA staff deals with a multitude of issues on a daily basis. Rather than using our paid staff to filter through the vast topics and issues, issues can be filtered through our “volunteer” Regional Officers and State Directors, as the first step in receiving information from our membership.

In an effort to streamline our operations and more effectively use staff time, please direct your input and/or concerns of Texas Deer Association issues to your Regional Officers for consideration, as this being the first step shown in the flow chart of communication.
